This is a scientifically article of food. It is rich, some, nourishing and so easily digested that the delicate stomachs of infants and invalids will retain it when they refuse to retain anything else.

It is as far ahead of old-fashfoned so-called malted milks as creamery butter is ahead of oleomargarine. As a delicious beverage it is superior to tea, coffee or cocoa, and you never tire of it. This is one of the best preparations of the great American Drug-

On another page today The Banner reprints both the Republican and the Democratic state platforms, that readers may compare the two. Quite contrary to custom it is the Republican platform this year that is radical and proposes advanced measures while it is the Democratic that is conservative and stand pat.

The Enosburg Standard joins the St Johnsbury Caledonian in bolting Doctor Mead, though it supports the rest of the ticket.-Randolph Herald and

Whether or not the bolt is justified each man must decide for himself but or one thing it shows an encouraging 0. independence of thought and action that will have a tendency toward curing the idea that the party label is a through ticket to eternal happiness.

An alarm is sounded that the public service corporations are in politics in Vermont decidedly this year, to the end that they may secure laws more to their liking, especially the railroad regulative statutes. It is well enough to be warned in season, but sentiment will not warrant any weakening in the attitude toward these corporations.-Randolph Herald and News.

The rank and file of the voters can look out for the interests of the state by seeing that their representatives are not under the thumb of any corporation or money interest.

The Democratic state platform condemns the general assembly of 1908 among other things for its "salary This led the Montpeller Jourgitiz | nal to inspect the records of the Democratic members of the legislature on the final passage of the bill. It found that five Democrats voted against the increase in salaries, 19 of the 39 Democratic members voted for the bill and 15 Democratic members were

BRYAN TO CONTINUE FIGHT

Calls for Nomination of County Option Candidates for Legislature

Lincoln, Neb., July 29,-William J. Bryan will continue the contest for county option and the initiative and referendum. In a statement issued

yesterday he says. "While the failure of the democratic convention to indorse county option was disappointing, still the fight for county option in the democratic party has not been in vain. In the first place, it has helped to secure a declaration in favor of the initiative and referendum in both parties and now that all parties have declared for it, there is no doubt of the necessary amendment being submitted at the

next session of the Legislature. "The work now to be done is to secure county option candidates in every Senatorial and representative district. The democrats who favor county option should turn out at the primaries and nominate a candidate favorable to county option. The republicans in favor of county option should be as active in securing the nomination of republican candidates favorable to county option. County option candidates should be nominated by all parties in each district, and I have no doubt that this can be done

CENSUS TAKING DONE

All reports of the result of the census must come from the census bureau at Washington, and the district superintendents of the various states are not at liberty to divulge any of the sec-
